

Project _____ Type _____ Quantity _____

The BS-9 is a brass ground stake used to mount fixtures with 1/2 NPS thread. Wireway slot opening lets stake be installed first protecting fixture wires. BS-9 offers strength and corrosion protection. The BS-9 will help reduce fixture operating temperature which translates into longer lamp life.

Construction: Cast Brass with machined slot and 1/2 NPS thread.

Note: Slot allows stake to be hammered in separately protecting fixture wires during installation.
