# DG LIGHTS

CP-150
Cap & Post

Project _____   Type _____   Quantity _____

The CP-150 is used to mount fixtures with 1/2 NPS thread. Fixture mounts to cap and secures to post via set screw. Post provides space and protection for wiring connections. Easily service with wiring connections at fixture location. Specify cap material and finish.

Construction: Cap CNC machined from solid billet.
              Post, 1.5 inch Sch 40 PVC, Gray

Adjustment: Cap rotates 360 deg , secure by locking set-screw.

Note: Specify cap finish only.
