

Project \_\_\_\_\_ Type \_\_\_\_\_ Quantity \_\_\_\_\_

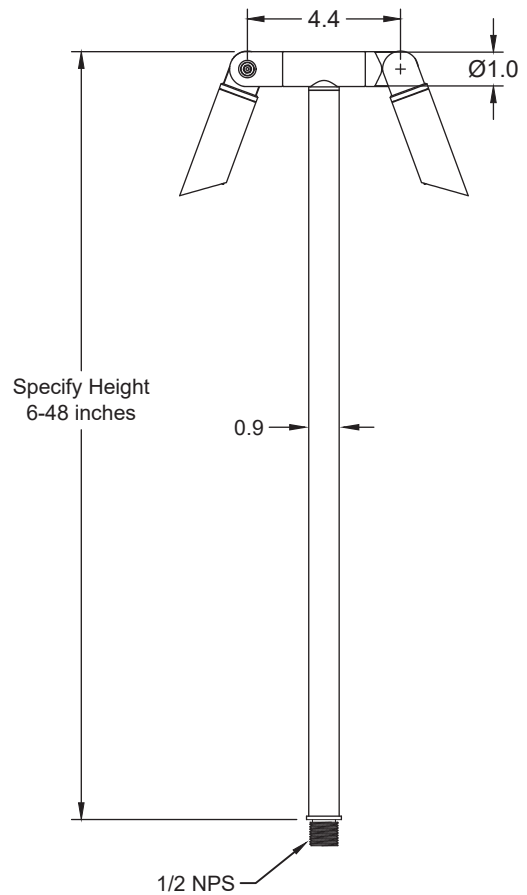

The S2 extension is used for placing spot fixture above surrounding vegetation, directional lighting of walkways, outdoor counter and table tops. Illuminating with the S2 provides greater design flexibility with multiple beam options and adjustability. Illuminate multiple objects from the same location with independently adjustable fixture heads. Glare free illumination is perfect for outdoor living areas.

**Construction:** All components CNC machined from solid billet, Stem is heavy wall tube.

**Adjustment:** Extension rotates 360 deg at stem top, secure orientation by locking set-screw.  
Tilt fixture head with side adjustment screw.

**Mounting:** Standard mounting is stake with 1/2 NPS thread.  
Use surface flange mount for counter and table applications.

**Note:** Specify fixture model here, exact fixture configuration specified separately.

### Ordering Guide

S2					
Prefix	Material	Height	Mounting	Fixture	Finish
	AL - Aluminum	XX - Specify	12 - 1/2 NPS	XT - XT	N - Natural (Brass/Copper/Stainless)
